

CB₁ has spent decades honing his craft and sharing his love for dance music across the US. He currently resides in Denver, Colorado, and is a resident DJ for Altitude Sickness, UKG Proper, The Distinguished and Tribalistic. He is also the founder of Skua Sound. While he's best known for his deep jungle and high energy UKG sets, he mixes across the subgenres of drum and bass effortlessly and is just as skilled mixing house and techno. Above all else, CB₁'s sets are carefully crafted with the dancefloor in mind. With his love of music and the dancer driving his sets, CB₁ has had the opportunity to share the stage with artists such as R.A.W., DJ Dara, Philth, Krafty Kuts, Justin Hawkes, John Kelley, Hipp-E, Electric Sky Church and others.
